

## Fire Extinguisher Platform

**Under Leadership of:**

**Prof. Wael Seddik (Dean of the Faculty of Engineering)**

**Under Supervision of :**

**Assoc. Prof. Sara EL-Bahloul (Program Director)**

**Team Mentor :**

**Eng. Mahmoud Hassanein**

### Team Members

No.	Name	Level
1	Mahmoud Al said Al-Sayed Hassan	1
2	Mostafa Helmy abd algawad ismail	1
3	Yahya Abdallah Mosad Abdelhamed	1
4	Khalid Ibrahim Hamed Ali Saafan	1
5	Mohamed Taher Mohamed Barhoum	1
6	Ahmed El-sayed Ahmed Badran	1
7	Ahmed Mohamed Ahmed El-Sayed Attalla	1

## **Fire Extinguisher Platform Aim**

This fire extinguisher platform represents a significant advancement in fire safety technology, offering a comprehensive solution for enhanced protection against fire hazards. Its integration of smart features and intelligent functionalities sets a new standard for fire extinguisher systems, ultimately contributing to safer environments and improved emergency response outcomes.

### **Purpose:**

- 1) Automatic fire extinguish and detect
- 2) Recycling electronic devices.
- 3) Helping the elderly in their daily lives.
- 4) Increasing the productivity of humanity.
- 5) Avoiding the problems faced by the blind people.
- 6) Activation of damaged nerves.
- 7) Enhancing the lives of the elderly and blind people and making them more selfreliant.
